-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. The request filed on 10/30/2007 for a Request for Continuing Examination (RCE) under 37 CFR 1.114 is acceptable and an RCE has been established. Any previous finality is hereby withdrawn and a new action on the merits follows. Any newly-submitted claims have been added. An action on the RCE follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-3,5,7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 has a mandrel with a stem, said stem having a 1st portion with generally constant reduced diameter, and 2nd portion with generally constant diameter (thus the larger diameter. Then the claim requires the mandrel to also have a head with a breakneck adjacent the 2nd portion (the larger diameter portion). This would be OK, except it then requires the head to have a shoulder portion tht is adjacent to the 1st portion (thus inevitably, the head must be adjacent the 1st portion, since the head's shoulder is). Examiner has drawn this out and cannot come up with any scenario where this is possible.

Examiner apologizes, but she cannot understand how this is possible. Needless to say if it is explained (informal drawing in the response correlating to claim, etc) then

Art Unit: 3677

any subsequent action will NOT be final and the limitations will be addressed with art or allowed, but at present examiner considers the claim unexamined since she can't see how it could exist. Claims 2--3,5,7-10 are rejected as depending from claim 1.

Response to Arguments

4. Examiner has reviewed amended claim 21 with respect to Palm, USP 5183357, and agrees with applicant that Palm cannot read on the claim, as Palm requires a tapered circular surface, and applicant now requires both a stem with a reduced diameter section with a generally constant circular cross section, AND the same stem to have a break neck portion. Other than picking and choosing features using impermissible hindsight, examiner cannot see a motivation to modify Palm to read on amended claim 21.

Allowable Subject Matter

5. Claims 21- 28 and 30 are allowed.

6. Note that the claims to the method of making a product were restricted by original presentation in the office action of 10/16/2006, and have been subsequently cancelled by applicant. IF applicant wishes, the restriction will be lifted, and examiner will permit them to be rejoined as long as they depend on the allowed product of claim 21, pursuant to the procedures set forth in MPEP § 821.04(B). Note that they must be "new" claims, with new claim numbers, since the original claims were cancelled, but if they are added as new claims depending from allowed claim 21, examiner will rejoin them.
